MEMORANDUM

TO: Dr. Charles Donnelly
SUBJECT: Boxing Team for WNCC

It would seem appropriate at this time to add another athletic activity to the athletic program of WNCC.

This is a request for your review and approval of a boxing program. I understand that this would have to be approved by our student-body council, our WNCC advisory committee, and the Board of Regents.

The following are statements concerning the development of the boxing program:

1. There is considerable interest by a number of residents of the Carson City area to support a boxing program. They have met with me twice to discuss possibilities. I would like to offer their names as the advisory committee for boxing. They are: Robey Willis, Jim Wittenberg, Jack Swobe, John McSweeney, Tom Ormochea, Angus McCloud, and Merv Matorian.

2. It is anticipated that six bouts could be arranged for this coming year with other community colleges located nearby.

3. The job corps site would be utilized for training quarters with no expense to the college.
4. Mr. Jim Wittenberg and Mr. John McSweeney have offered their services to coach the team.

5. Funds for travel, uniforms, and other training needs would be supported from the student athletic fund and gate receipts from bouts. No direct appeal for funds would be made to the public.

6. The cost for supporting a boxing team for the season would be $____, ____.25.

7. All students in the counties served would be eligible for the boxing team.

8. The season for boxing would commence in October and continue through May.

9. Schools or organizations with whom we may compete are Lassen College, Consummes River College, Laney College (Oakland), American River College, University of California Novice Tournament, and the 12th Navy District.

10. It appears that the costs would be minimal and the supervision and administration work load would also be minimal. The boxing team could be a very positive aspect of our total WNCC program.

J. Clark Davis
Executive Vice President
