American Indian Organization

**Campus Tour and Coffee**
New Reno Campus
Expected in 1976

In the Fall of 1976, occupational students enrolled at W.N.C.C. will enjoy the privilege of attending classes at the new campus in the north Reno area. At least, that is the proposed schedule according to Dean James V. Eardley.

For those wishing to obtain a sneak preview of the proposed campus, plans and drawings are available in the Dean's Office and he welcomes all comments and suggestions. Dean Eardley also stated, "I wish to extend a cordial welcome to all students enrolling in classes this fall and encourage suggestions that will aid the betterment of Western Nevada Community College."

Things Exploding
At Carson Center

"Things are exploding in Carson; everyone is enthusiastic, and the offers for assistance are overwhelming. Our new building should be completed in October or early November, and I am especially proud of the environmental laboratory," enthused James Conley, coordinator of the Carson City Center.

During the fall semester forty-four additional courses will be offered to enrolling students, and twenty-three courses will be made available to in-mates of the Nevada State Penitentiary.

The classes at present will be held in the Benson Building, Carson High and Junior High Schools, Nevada State Museum, Beth Lutheran Church, and Carson's W.N.C.C. Campus.

The biggest problem at the Carson Center to date seems to have been a recent untimely tour of the new facilities by a lone rattlesnake. However, his presence was quickly disposed of and since construction should resume shortly, future visits are unlikely.

For those wishing to attend the college this fall, registration in Carson will begin Monday, August 26, at the Carson City Center, 812 N. Carson Street. Early registration is advised as a larger turnout is expected.

With so many new courses being offered and a new building rapidly nearing completion, the Carson Campus is off to a splendid beginning this semester.

Lewis Scott Joins
RT Faculty

This fall a new face will be seen in the radiologic technology program at Stead. That face belongs to Lewis Scott, a native of LaFerla, South Texas, who will be teaching this year in Ernestine Lefebvre's absence. (Miss Lefebvre is on a year's sabbatical leave and attending school in Denver, Colorado.)

Scott, as he prefers to be called, is not new to our area. He has worked at Washoe Medical Center since 1966, and has received an associate degree in radiologic technology through the Nevada Technical Institute. He returned to earn a nursing degree with WNC.

In a recent interview Scott said, "Teaching is a new experience for me; it feels odd to be on the other side of the desk. I do more studying now than when I was a student."

This fall Scott will be teaching thirteen students in the first year X-ray program, nine in the second year classes, and supervising six students interning in the immediate area.

Scott is looking forward to a good training program this fall and Eastern Nevada Community College wishes him great success in his present endeavor.

Prez Says

I'd like to take this opportunity to welcome back to WNCC those of you who were with us last year, and also to make welcome those of you who are here for your first semester of the "WNCC Experience." I hope you all enjoyed the summer vacation as much as I did, and now that it's over, let's get cracking and make this another fun and worthwhile semester.

This semester we're kicking things off a little differently, namely with an orientation program designed to help familiarize you with the school, its services, and your student officers. It's a new program and so I'm sure that we'll make a few mistakes, but its whole purpose is to help you and I want you to know that we will do all we can to assist you and help to make you feel at home. As always, we're open for suggestions and will welcome any ideas you might have to help us improve the service in the future.

The United Students Association belongs to all of you, and without your support and your input, we'll never get anywhere, so come on and get involved.

The first activity on the agenda this semester will be a "get acquainted" picnic September 28th at Bower's Mansion. We'll keep reminding you of it, and I hope you'll all make plans to come out and have a ball! Without your support it's impossible for us to make any activity a success, so let's set a precedent early this semester and get everyone out to the picnic, how about it?

Although it's a bit premature, I'd like to remind you that it's almost basketball time again. I hope you'll all make plans to come out and support our entry in the Golden Valley Conference, the Super WNCC Wildcats. It looks like we'll have another exciting team on the floor this year, and I can promise you it's always a lot of fun to be there. I'll be there, so come on out and have a ball!

In addition to the basketball team, our student body funds also go to support the Wildcat's golf and boxing teams. As a member of the golf team I can assure you that it's a lot of fun to compete in the Golden Valley Conference. If you're interested please contact Coach Joe Ayarbe or myself and we'll fill you in on how and where to sign up. Believe me, it really is a worthwhile experience.

In closing, I'd like to re-emphasize to you that this is your Student Body and I invite you to become involved. I urge you to join in and discover that the "WNCC Experience" can be a Total Experience.

Terry Stewart
Student Body President

We of WNCC's newspaper staff are announcing the new name of the newspaper and a statement of what we will be presenting to you through this publication.

The WHISPERING WILDCAT will be the new name for the newspaper; the meaning is that of a low, soft, gentle voice, that can rise to an aggressive, quick tempered, furious roar if it becomes necessary.

Our Statement of Policy is:

Tread softly, speak wisely and listen to your inner Self. Before pushing head long into writing an article, investigate. A person's perception of what he's trying to accomplish may often be completely different from what he's actually doing.

Acquaint yourself with all the facts so that what is produced for others to read is thoroughly factual, tasteful, and in good taste. Error cannot live where the light of truth is to be found.

We of WNCC'S WHISPERING WILDCAT welcome aboard Don Lynch as one of our advisors. We feel that his professional experience is our good fortune.

Also, we are happy to have Ray Embry returning as advisor. His knack of understanding the students along with his enthusiasm is a great asset to WNCC'S WHISPERING WILDCAT.

The WHISPERING WILDCAT wants to express a welcome to the new faces on our campus and our pleasure at seeing the familiar faces back again to enjoy the 'WNCC Experience'.

Finklea
83 Students Graduated in

Carson Commencement Program

To the strains of "Pomp and Circumstance" by the Cliff Jackson Orchestra, the third annual commencement program began in the Crown Theatre Ballroom of the Ormeby House on Tuesday, May 30, 1974, at 7:30 p.m. After the invocation by Dr. John Marshall, director of the Center for Religion and Life, Dr. J. Clark Davis, executive vice-president, welcomed the graduating students, faculty, friends, and family, and introduced the Board of Regents and administration. The Gospel Choir of Proctor High School sang three selections before the featured speaker, Dr. Davis introduced the faculty of WNCC:

Dr. Charles Donnelly, president of the Community College Division, congratulated the graduates and spoke on the challenges of life ahead—infatuation—pollution—watergate—just to mention a few topics. Dr. Donnelly stated that he does not "believe there is such a dull future ahead." He went on to say that the graduating class was "fortunate to be graduating now," that "we must never lose respect for the common people" and he placed emphasis on self-reliance. "We must remember our purpose, remember our Democracy. May you graduate meet these challenges ahead on.

Dr. Davis then presented the class to Harold Jacobson, chairman of the Board of Regents, University of Nevada System. Those graduating included:

Associate in Applied Science, mid-management, Clarence Daniel Townsend; Associate in Applied Science, Secretarial Science, Barbara Jean Gerocho, and Arlene Ambrose Thomas; Associate in Applied Science, Fire Science, Larry W. Chapman; Associate in General Studies, Marilyn Gai Best.

May, 1974 graduates: Associate in Arts, Liberal Arts, Ranger Ellis, Bobby Herbert Hinterboth, Christie Ann Hynes, Carl Justice, Janet Lavelle John, Dwight Irving Lindsey, Robert James Marquard, Orris Dayman McCaslin, Jr., Marilyn Paoli, Ronald Dana Saunders, Linda Mae Stice, Richard Edwin Wipfli, Karla Sue Brazen;

WNCC’s New Crest

Angry and Seething

I am angry! No, I am more than that—I am seething with rage! I entered the Community College to learn and for the chance to participate in activities that would make people in the community sit up and take notice of all the things WNCC has to offer. What have I found? That almost every student at WNCC is willing to sit back and let someone else do the work, whatever it be, remain undone. Students find the time to criticize the student government or the student body president, and many find the time to utter snide remarks or make sick jokes about the school newspaper, but NONE of them contribute any effort to make these groups or organizations better.

As a result of the tremendous effort of the students at WNCC there will be only three cheerleaders to cheer for the basketball team this year. Due to the great enthusiasm of the students the cheerleaders will probably be the only ones who bother to attend the games and support the team anyway.

As a result of the willingness to contribute something of value to the school paper it is reported, written, typed, revised, edited, arranged, and circulated around school mainly through the efforts of three people, including one person recently discharged from the hospital.

Terry Stewart did an excellent job as student body president this past semester; he had to endure a great deal of criticism in order to contribute something of value to the school. It should not be so.

I am sick of the lethargy that abounds on our campus. Many of the older students have much to offer the school in the way of experience in many, many areas. The young have energy and enthusiasm and a desire to succeed which could help accomplish the ideals behind our school. We must join the two.

If we are only sitting in classes, regardless of the grades we are receiving, we are only half a student. We must support and contribute to the school in order to be part of the system. Nothing is ever accomplished sitting on the sidelines.

It has taken me less than fifteen minutes to write this letter, surely every student on campus can spare as much time to write an article for the school paper. No masterpieces of journalistic ability, but a simple article on a subject which interests them. Not everyone can be a cheerleader, but everyone can attend a game and cheer for the team. Not everyone can be chosen to work on the Student Council, but everyone can make suggestions directly to their representatives instead of engaging in worthless criticism to a friend.

Wouldn’t it be wonderful if everyone would try to contribute instead of tear down? Wouldn’t it be wonderful for a change?

CASTLES IN THE AIR

I find the gayest castles in the air that were ever piled far better for comfort and for use than the dungeons in the air that are daily dug and caverned out by grumbling, discontented people. A man should make life and nature happier to us, or he had better never been born.

Emerson

RT Grads Begin Intern Program

Six students of the Radiologic Technology Program at Stetson have passed the registry exams and are interning in the area.

Those working in the area hospitals are: Jenna Brown and Lisa Soma, St. Mary’s Hospital, Reno; Betty Jo Aja, Veterans Hospital, Reno; and Janet Winchester, Carson-Tahoe Hospital, Carson City.

Mrs. Toni Berry is working fOr Dr. Maurine Barrows and Associates while Sherri Hall serves her internship with the Nitz-Brady Surgical Center.

Need Money? Jobs?--- Contact

New Financial Aids Director

Need help with expenses this semester? Maybe some extra money? Need experience in your major field? WNCC has one answer.

Three years ago the administration realized that students needed an office where they could receive help in job hunting. Bob Hill, Director of Financial Aid and Placement has been designated as the clearing house for the two types of student employment. Jobs of many descriptions from all the centers have been compiled and are waiting for people to fill them.

Students applying for Federal Financial Aid based on need come under college work study. They supplement their aid by working for WNCC a set number of hours per week. The Federal government bears 80 percent of the labor cost and WNCC bears 20 percent.

Students not qualifying for aid based on need come under general student employment. While the entire labor cost is funded by WNCC the student wage rate is the same as work study.

Pleasant surroundings, green grass, friendly atmosphere and work schedules tailored around classes meet student needs. Not too many companies offer that.

Student employment forms with complete instructions will be available through representatives from the Placement office and the Financial Aid Department. These representatives will be there to answer questions and assist students during registration at all centers.

PATIENCE

We have need of patience with ourselves and with others, with those below, and with those above us, and with our own equals with those who love us and those who love us not; for the greatest thing and for the least; against sudden inroads of trouble, and under daily burdens of disappointments as to the weather, or the breaking of the heart; in the weakness of the body, or the weariness of the soul; in our own failure toward us in every-day wants, or in the aching of sickness; or the decay of old age; in disappointment, bereavement; in sorrow, in reproaches, in heartbreak; in the heart; or in sickness amid delayed hopes. In all these things, from childhood’s little troubles to the martyr’s sufferings, patience is the grace of God, whereby we ensure evil for the love of God.

E.B. Parry

GOOD NATURE

A cheerful temper, joined with innocence, will make beauty attractive, knowledge delightful, and wit good-natured. It will lighten shades of poverty, and affluence; convert ignorance into an amiable simplicity, and render deformity itself agreeable.

Addison
WNCC Theatre Interest
Growing Like Crazy

"All the world's a stage and all the people merely players" says Shakespeare, but in all the world there is only one WNCC stage.

Two years ago Western Nevada Community College had a stage, but no students interested enough to put on a production. In the fall of 1973, a few students and instructors produced the play "Sandbox." This met with enough success to warrant a class in drama and in Drama Workshop.

What carried us as a Drama Workshop became Theatre Arts Unlimited, the Western Nevada Community College Drama Club. Through Community effort and the assistance of a professional theatrical group, ILO West, defrocked WNCC students and their families, the "Devil and Daniel Webster" became a reality.

Theatre Arts Unlimited is planning two plays to be presented sometime in October. These plays will be "Adam and Eve" and "Zor." To make this season a success we will be needing many things, but mostly YOU!

This may sound like work, then fun. I'd be the last to say that there's no work involved, but from this work will come a satisfaction, a warm feeling that no other class or job will ever give you.

If you are an Actor, Stagehand, Light and Sound Effects, Man, Makeup Man or can Design or Sew Costumes, WELCOME!

Hopefully, WNCC can add more memories to the Drama Workshop's reputation and put on more Good plays.

On Wednesday, September 4, 1974, at 2:30 PM in the Student Lounge, a meeting will be held for all those interested in taking part in this fall's productions. At that time productions will be discussed and rehearsal times and dates formulated. See you there.

Bill Holman, President
Theatre Arts Unlimited

Go Team Go!!
Cheerleaders Ready For
Opening Basketball Game

Stephanie Corolo, Kathy Evert, and Vickie Crain will lead the cheering section at WNCC's first basketball game of the '74-'75 season at Stead Gym. "All of us are really anxious to get started," Stephanie Corolo, head cheerleader, stated in a recent interview.

When asked why WNCC could have only three cheerleaders this year, Stephanie replied, "Auditions were held May 9th and 10th, during the week of Spring Madness and no one showed. People just don't take part in school activities. Nobody is interested!"

The cheerleaders will have two new outfits to wear alternately with the uniform of last year. The first will be a red and white checked pinacare with ruffles over the shoulders, The dress will be worn with a white or red turtleneck jersey.

The second outfit consists of a blue kettlecloth, bibbed and cuffed, hot pants suit. The hot pants are worn with a red turtleneck, blue knee socks, an ogloves. Red and white saddle shoes will be worn with all outfits.

A red and blue printed musical note embroidered with the WNCC letters will be proudly worn on all the uniforms. The new outfits were sewn and tailored for the cheerleaders by Sara Finkele.

Carol Heaton will again serve the group in the capacity of chauffeur and advisor and Michele Barry will be the school mascot.

The group is currently working on a new routine set to the music "Free Ride." If everyone at WNCC contributes as much enthusiasm as our cheerleaders and mascot we should have an undefeated basketball season ahead of us this year.
Counseling Services
Available to All

Ray Duffield has been named the new Veterans representative to be known as Vet Rep.

Ray Duffield Named Vet Rep at WNCC

Dave Wood announced recently that Ray Duffield has been named representative of the Veteran's Administration or Vet Rep., at Western Nevada Community College. In this capacity he will assist the veteran in taking full advantage of all benefits available to him, especially those for education. Ray will be available regularly at the Student Services building at Stead or you can call 971-0703, extension 62.

Microbiology

Western Nevada Community College offers a variety of counseling and guidance services. Trained counselors are available at all times to aid each student in making his own important decisions by examining his abilities, attitudes and interests as he sets his educational goals and career directions.

Such specific counseling services as: Academic Guidance: help students plan programs, select courses, work toward the fulfillment of educational and vocational goals, and give specific information regarding graduation requirements, degree progress, and transfer of credits.

Personnel Counseling: help students progress toward self-understanding, solutions to problems, and concerns that might interfere with learning.

Group Guidance: A RAP session to give students the opportunity to discuss problems and concerns in a group setting.

Vocational Exploration Groups (VEG): will be scheduled regularly to help students acquire the motives, work understandings and job planning strategies to make effective career choices. VEG workshops are scheduled to be held the first Wednesday of each month at 1:00 p.m. Information regarding sign-up, location and procedure can be obtained from the Office of Student Services.

Career Centers: is located in the Student Services building at Stead. It offers an up-to-date library of career information, a variety of audio-visual aids designed for career exploration, a library of college catalogs, educational information, and self-help programs. Throughout the year, films and informative speakers will be brought in as special programs.

WHAT IS WORTHWHILE?

The world is blessed most by men who do things and not by those who merely talk about them.

James Oliver

The life of man is made up of action and endurance. The life is fruitful in the ratio in which it is laid out in noble action or in patient perseverance.

Liddon

Veterans Services Office
Equipped to Assist

The WNCC, Office of Veterans Services is fully equipped to assist veterans attending WNCC. The OVS is staffed by the Veterans Services Specialist and one secretary. In addition the Veterans administration has begun a program providing each educational institution with a VA Representative. The VET REP, as he is called will be available on campus to assist in filing claims, explaining all benefits, and in determining the status of all claims.

The Office of Veterans Services staff will be available prior to and at registration for Fall 1974. It will be imperative for all veterans to contact the OVS at any time prior to or during registration to insure all VA paperwork is in order.

All veterans with other than dishonorable discharges, at least 181 days of active duty, and that have been discharged after 9/30/65 will have VA educational assistance available. The term mention date of eligibility period for vets with active duty during 1/31/65 to 5/31/66, is now 5/31/66. This new status is due to the new eligibility period of 10 years instead of the old 8 years.

Veterans now have a 12 month year continuous payment option. This is available if the vet intends to extend the summer sessions. Payments will be issued on a 9 month basis for the entire academic year if the vet hasn’t chosen to attend in the summer.

During the regular semester veterans may utilize the OVS concerning follow-up of benefits not yet received. New programs will also be available to vets at WNCC such as: Tutorial programs, testing, more counseling and advisement, discharge upgrade, and academic advancement.

The OVS staff incorporates a VA benefit increase as well as more programs intended to better serve the vet to be implemented by the Veterans Administration. A better year is expected for vets in all aspects of education at WNCC continuing to grow.
